

INTEGRATIVE ACUPUNCTURE

Clinic Fee Schedule

Welcome to our office! The information below is provided to make you aware that our fees are different if you are a cash paying patient versus if you have insurance.

Insurance Patients

You will be responsible for payment of any deductibles, co-pays, and coinsurance amounts not covered by your insurance provider (the amount of these costs varies). Please note that we usually charge insurance companies between \$150-350 per visit, dependent on the therapies performed in conjunction with the acupuncture, such as: manual therapy (massage), infrared, e-stim, injection therapy, therapeutic exercises, etc. Charges are often higher for new patient visits or re-evaluations of your case. We rarely receive what we bill since all charges are reviewed and reduced by insurance companies. When you receive your explanation of billing (EOB) from your insurance company, it may tell you that you owe Integrative Acupuncture the difference between what we charged for your visit and what your insurance actually paid. This is not necessarily the case. We will inform you if we will need to collect this balance or a portion of it (we usually do not).

There may be times when our billing service is mis-quoted information and payment is not made as initially described by your insurance. These additional amounts are your responsibility and we will do our best to keep you apprised of any information regarding your benefits if they should change.

Cash Patients

Currently our cash rate for a new patient visit (thorough exam, health history, and report of findings) is \$175 and acupuncture visits are \$75.

These fees are called "point of service fees" as they are paid at the time services are delivered. Understand that this is also a discounted fee because it does not involve the administration and processing of insurance, and because we know most people are unable to pay our regular fees that we bill insurance companies. We have a few sliding-scale spots available in our practice and are reserved for those with financial hardship/low-income that display a strong commitment to improving their health.

All fees charged at Integrative Acupuncture are reasonable and in keeping with industry standards.

Other Services

* Herbal and Dietary consultations (includes a prescription for an herbal formula, nutraceuticals or specific dietary program); New Patient \$125, 1 hour for \$75 and 30 minutes for \$45. Herbal and Nutritional Supplements are NOT covered by insurance or third party payers and must be paid at the time these items are received.

I have read and understood the fees charged at Integrative Acupuncture.
